

Dear <name>,

I'm writing to inquire about the opening for <job title>.

I offer more than 10 years of experience in data analytics and excellent project-management skills, a great eye for detail, and hands-on experience on Python, SQL, SAS, Tableau, data manipulation, and model development, all of which should make me an ideal candidate for this opening.

I'd welcome the opportunity to speak with you if you feel I'd be a strong candidate for this or other positions within your organization. My goals are always to improve the company's service and product to fulfill the customer's needs.

Best regards,
Marcelo Alves Pereira
